

NGX20-SLC-QMC

QUALITY MEASUREMENT CONTROLLER

ONE PRODUCT,
INFINITE INDUSTRIAL
SOLUTIONS WITH NGX-SLC

QMC

Quality Measurement Controller is suitable for collecting data from quality measurement instruments, synchronizing measurements, and managing sample streams.

Basics of the system:

- B&R C70 high-performance integrated PLC
- X20 type I/O cards
- 7.0" colored touch panel
- 19" 3U rack design
- 24V DC 1.2A

Communication:

- RS485 MODBUS-RTU
- MODBUS/TCP

Kezelés:

- Front panel keyboard
- Touch screen

Főbb tulajdonságok:

- Coordination of instruments used in quality measurement systems and control of sampling streams designed according to ISO 10715
- Exporting data to a USB pendrive
